Description

Totally adjustable smart floor sign stand

High-quality adjustable poster stand displays your own printed message professionally. Presenta Flexi excels as a flexible menu board in high-class restaurants, or as a premium sign stand to welcome guests to a prestigious club or venue. This smart sign stand is fully adjustable to adapt to changing needs i to display A4 or A4 signs, posters or menus.

This versatile angled poster stand is based on a clever design with a easily-adjustable knuckle joint to allow the frame to swivel before locking securely in position. The Presenta Flexi is adjustable in **height**, the frame **angle** can also be adjusted. Even the frame **orientation** can be changed from portrait to landscape - quickly and easily for maximum flexibility.

- To set the height a small clamping lever is released. The upper leg slides in and out of the lower leg - ideal when you need a sign stand at a specific height. Max. Ht. is 1250 mm.
- The frame angle is also adjustable all the way from vertical to horizontal. Simply undo and re-tighten a locking device behind the frame.
- The A3 or A4 snap poster frame can also be set to either landscape and portrait - and changed back just as easily: all without tools.
- Simply flip open the sides to insert your printout in the frame behind the supplied plastic cover sheet.

Colour: Silver

More Information	<div><h2>Flexible Menu Board Applications</h2><p>The Presenta Flexi is ideal for displaying menus at the door of a restaurant, product details in a car showroom or direction notices at a meeting or exhibition venue - it's totally flexible! There is also an illuminated version of this product available - see illuminated menuboard Lumi Flexi.</p><p>The base is weighted with a metal inlay plate and the unit is perfectly stable indoors. The unit is not intended for permanent outdoor use but short term outdoor use in suitable weather conditions is no problem. The display stand is very portable.</p><p>The snap frame is intended for easy change over of paper graphics, either A3 (pictured) or A4 size. The snap frame offers protection to printed menus and printed signs with the supplied poster cover sheet - but the frame is not watertight so paper inserts could get spoiled outdoors in wet conditions. The stand won't suffer but you may need to replace the printout.</p></div>
Assembly and Installation	Easy to set up with minimal assembly required.
