---

- Wooden chalkboard stakes are used in garden retail and in many other situations
- Eco-friendly blackboard stakes look attractive to display signs and merchandising
- Write-on blackboard stakes are sold in packs

## Description

---

### Chalkboard garden stakes can be used anywhere

Versatile chalkboard wood stakes have a chalkboard writing area which is suitable for chalk pens – we supply indoor chalk markers or waterproof outdoor chalk pens. Refer to **More Information**.

The four sizes of wooden chalkboard stakes we supply can be used in many imaginative ways – especially whenever rustic charm or a natural eco-friendly sales message needs to be conveyed.

- Chalkboard wood stakes make ideal garden stake tags, used to display prices in nurseries and florist shops and as wooden plant labels in your garden.
- Chalkboard garden stakes don't just get used in the garden! They are ideal for merchandising giftware and nature-friendly cosmetics.
- Wooden chalkboard stakes are used by greengrocers, market traders and farmers' markets – they also look good in creative craft projects such as table decorations.
- Planning a rustic theme wedding? Use small wooden blackboard chalk stakes to guide your guests to the right table! Craft charming table place name signs with mini terracotta pots, vases or floristry sundries (not included).

### Wood chalk stakes in packs in 4 sizes

- The Mini and Small size chalkboard stakes serve as an elegant wood chalkboard plant tag – for example in herb pots,
- The Medium and Large wood write-on chalkboard label stakes share the same stem length, but the blackboard area is different, giving more space for your message.
- Chalkboard garden stakes are sold in packs.
- Please check sizes carefully to ensure your chalkboard signs are in keeping with your hand-written signage scheme. See images for details.

More Information	<p><b>About chalk pens and the blackboard writing surface</b></p> <p>Chalkboard stakes made of wood have a blackboard writing surface which is receptive to chalk pens, The way the writing is removed depends on the type of chalk pen, Wet-wipe pens can be cleaned off pretty effectively with a damp cloth. Success depends on how long the writing has been in place and other factors. Various chalk pen cleaners can be used for stubborn shadows.</p> <p>Waterproof chalk pens cannot be cleaned with water so a damp cloth won't work. However the chalkboard cleaner we supply is effective. We can also recommend certain proprietary cleaners – but you have to choose carefully as many kitchen surface cleaners are ineffective.</p> <p><b>Follow these links!</b></p> <p><a href="#">Wet wipe chalkboard pens</a></p> <p><a href="#">Waterproof chalk pens</a></p>
