**Specification of Snap frame A-boards**  
**Our A Boards are supplied without posters.** Advertising posters designed to your individual needs can be sourced in most towns from local printers or sign shops and changed when required to keep your message looking fresh.  
Snap frame A-boards are shipped out individually boxed with corner protectors to offer added protection. Poster protectors are shipped inside the frame. Because they are see-through they can be missed - so please look again as they are always included.

The poster frames on these pavement signs are supplied with drainage holes at the bottom of the frame but are not guaranteed 100% waterproof. Generally, this does not present a problem when posters are changed from time to time. Other options are to print the poster on water-resistant paper or synthetic media or to encapsulate the print. This is best for more permanent advertising boards.  
Alternatively, select from our range of [waterbase pavement signs](#) as these are fitted with virtually waterproof poster frames.

As well as supplying end users direct we are a trade supplier of A-boards.
