WARD

Description

Sign stand for counting venues

A practical and economical metal sign stand for signposting election ward vote counting positions and for directing observers and staff to the correct location in the town hall or sports centre.

The sturdy base and adjustable height pole are made of metal with a shiny chrome finish. Each stand is supplied with an A3 frame made from clear durable plastic. A U-shape clear poster sleeve is supplied with every stand. Printed A3 paper signs are easily slotted into the frame, which can be positioned in landscape or portrait orientation. The frame clips into a T-piece mounted on top of the pole and can be positioned centrally or offset to create a gibbet arm effect.

The tall sign stand is stable indoors in freestanding situations. When placed adjacent to a vote counting table the pole can be adjusted to over 2.1m in height, making election ward signs clearly visible above head height.

The metal base is designed for space-saving nesting when the product is not in use.

Additional Information

More Information

Tall floor sign stands are economical and robust. They are intended for indoor use - ideal for most retail store types including supermarket floor POS, convenience store product stacks, electrical and houseware retailers, fashion boutiques etc.

- Simple self-assembly.
- 14mm spanner (not included) is required to assemble base to the tube.
- U-pockets are thin plastic (200 microns) folded to make a sleeve into which paper printed signs can be inserted.

ATTENTION: These frames are Not for laminated POS

These clear plastic frames will **not** fit encapsulated A3 paper (i.e. A3 with an extra border).
