Description

A2 Black Snap Frames

Transform and elevate your promotional displays with our A2 black snap frames. Ideal for showcasing large posters, advertisements, special offers, and important notices, our A2 black frames deliver your message with style and impact.

Our snap frames are top sellers for several reasons:

- **Quick snap mechanism:** the easy open-and-close action makes changing your posters quick and effortless
- **Protective cover:** includes a transparent, non-reflective cover to protect your poster from dust and damage whilst ensuring clear visibility
- **Stylish finish:** contemporary design and smart black finish
- **Professional presentation:** A2 size is perfect for displaying large posters
- **Easy installation:** our A3 black frame comes with the fixings you need for straightforward and hassle-free installation
- **Alternative hanging solutions:** options include double-sided tape or suspension clips
- **Versatile use:** ideal in all sorts of environments - retail, hospitality, leisure and more
- **Excellent quality:** made from robust, durable and recyclable aluminium, our A2 black snap frames are made to last
- **Reusable:** designed to be used time and time again
- **Great value:** excellent quality A2 black snap frames at an affordable price

We stock a comprehensive range of snap frames in all sizes and colours - just take a look at our snap frame category.

Improve your signage today with our A2 Snap Frame. Click "Add to Basket" to purchase and start creating more effective and professional displays.

Additional Information

More Information

A2 Black Frame Surround

Our A2 black frames feature a 25mm surround, which is one of the most popular profiles for snap frame poster holders in the UK. We offer a wide range of frames with this surround size, allowing you to mix and match your poster holders for a cohesive and dynamic look.

A2 Clip Frames

Snap frames, sometimes referred to as clip frames, are high-quality, professional-use frames. Don't confuse these with the lower-quality home-use poster frames that have a hardboard back and clips. Our A2 black frames are perfect for hospitality and events venues where promotional posters need to be updated regularly. These frames are also an excellent choice for home use!

Size Information for Aluminium Snap Frames

• The width of the surround is 2.5cm = 25mm or 1 inch
• Front-to-back depth of 25mm profile snap frame: 12mm (approx 1/2 inch)
• A2 relates to the size of paper an A2 frame will fit.
• A narrow strip around the edge of your print is hidden when the frame is closed.
• Visible poster size: 22mm less than actual poster (i.e. 11mm all round your poster is hidden by the frame surround)
• The overall size of the frame is larger than the paper inserted.
Overall (external) frame sizes are shown in the table:

Table of standard snap frame sizes – relates to 25mm wide profile frames

Product Dimensions

Paper Size	Poster size	External size	Visible area
A5	148x210	177X239	126x188
A4	210X297	239x326	188x275
A3	297X420	326x449	275x398
A2	**420X594**	**449X623**	**398x572**
A1	594x841	623x870	572x819
20.30	508x762	537X791	486x740
B2	500X700	529x729	478x678

SPECIAL SIZES

Other special sizes can be made to order. Custom sizes cost a lot more than stock sizes unless the quantity is more than 50 frames. Please get in touch if you require special-size snap frames.

Assembly and Installation	**Fix snap frames using screws** • The best way to permanently fix snap frame is with screws. • Screws and plastic wall plugs are included with every snap frame we supply • The wall plugs are for use with masonry walls such as brick and most plastered walls • When screwing onto wood the plugs are not needed • A power drill and screwdriver are required for screw fixing (and we recommend using a spirit level and tape measure to ensure the frames are properly aligned). If in doubt please consult a proficient DIY or trades person. **Fix snap frames using adhesive tape** • Rolls of double-side adhesive tape are available as an accessory item. • If **double-side adhesive tape** is used to fix frames (in place of the screws supplied) please check the smoothness and suitability of the wall. • Tiles and similar surfaces may be suitable provided they are cleaned thoroughly before application. • Tape fixing is not suitable for surfaces with a non-stick coating or porous/foamed surfaces. • We recommend that tape is used around the full perimeter of the frame. • Larger frames are normally best screwed. A residue of foam tape will be left on the wall or door after removal of the frame and the frame will usually be hard to get off.
Delivery and Returns	• We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery. • Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem. • For detailed information about Delivery charges or Returns and refund policies, please click on the links below.
