Description

Wall picture hanging kit - Wall hanging hardware from wires

Wall fixing picture hanging kits are perfect for hanging pictures with wire from neat wall anchors screwed to the wall. The wall fittings are unobtrusive and support the weight of most picture frames, provided that the wall is receptive to screw fixing. The picture hooks slide up the wires and lock on at the required height. Downwards adjustment is easy by depressing the button at the top of the hook, to temporarily release the secure internal wire gripper mechanism.

Smaller paintings and artwork can be hung on a single picture hanging wire. Larger frames should be hung using two kits. Where frames may be double-stacked on a single wire (or pair of wires) the extra length of the 2m kits will be valuable. Excess wire can be coiled up and taped or clipped behind the bottom picture, or trimmed off with wire cutters. Extra hooks can be purchased and added as required - see Recommended Accessories.

- Neat wall fittings conceal screw fixings and secure the drop wire close to the wall (5mm away)
- Sets are available in satin silver or matte black finish, with 1m or 2m wires
- Stylish picture hanging system for artwork and paintings, with easy picture height adjustment
- For larger pictures two picture hanging kits are required, to spread the weight and stabilise the frame
- Add additional picture hooks for multi level or stacked art displays in your home, business or gallery

The wall fittings are secured with 4mm diameter screws. The weight supported will depend on how sound the wall fixing is - up to 10kg per wire is generally safe when securing to sound masonry. If in doubt seek advice from an experienced DIYer or installer.

Additional Information

More Information	<ul style="list-style-type: none">• Drop wires are 1.5mm diameter 7x7 steel wire rope, with silvery galvanised or black finish.• Ceiling fixing alternatives are available, as are kits to hook onto a traditional picture rail.
Product Dimensions	For dimensions please refer to the diagram in the image gallery.
Assembly and Installation	<ul style="list-style-type: none">• The wall plugs we supply work fine in traditional masonry, such as plaster applied to brick walls. For dry lined walls we suggest you source different wall fixings and restrict the weight of pictures if you are just relying on fixing into plasterboard or other dry linings.
Delivery and Returns	<ul style="list-style-type: none">• We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.• Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.• For detailed information about Delivery charges or Returns and refund policies, please click on the links below.
